

Free SEO Toolbar to check page rank and all SEO tools

Free SEO Toolbar to check page rank and all SEO tools

Website health analyzer tool called PageBoss.

This tools help you to find all this details:

- Checks Google Page Rank
- Checks the number of back links
- Checks the number of indexed pages
- Checks for Google directory presence
- Checks for Google Trends presence
- Checks whether Google Analytics implemented or not
- Yahoo back links, Indexed pages, Directory and Buzz
- MSN Live back links and indexed pages
- All the Alexa stats including ranks, page load time, popular regions etc
- DMOZ records
- Technorati Ranks and Back links
- Delicious submissions, Quantcast
- W3C Validation
- Twitter links data and
- Wayback Machine data

And though these data are available on other SEO tools like the SEO Quake plugin for firefox and also SEO for firefox .

Try it out here.
