

## Earn for reading SMS without spending money

Earn for reading SMS on your mobile without spending a penny

This one is really cool, while surfing on net I found a site which deals with mobile marketing. They pay you for reading SMS. These ads are only about your interests.

You cant earn much but at least it's sufficient to pay your cell phone bill. You don't have to invest a single paisa or money.

- 20 paisa for every ad you receive
- 10 paisa for every ad your friends receive ( referred by you )
- Get 5 paisa for every ad your friend's friends receive ( referred by your friend whom you have referred )

Once you have reached 300Rs mark your cheque will be sent to your postal address.

My earning is near 1500 per month.
